

All sizing is US.

Parkas: Refer to Canada Goose Parka Relaxed Fit sizing chart [here](#)

Boots: Sorel Boot sizing chart [here](#).

Snow pants we carry a few different brands: Misty Mountain, Choko and GKS for women plus the Helly Hansen brand for men. Unfortunately, we don't have a quick reference sizing chart for these companies. If you're comfortable you can provide your weight, height and basic measurements and we can select what would be the best possible fit.

Please note sizes/brands may be substituted if first option is not available. We have a few models/styles of parkas that fit larger such as the Mantra. We also carry OSC Parkas in inventory that are very comparable in warmth to the Canada Goose brand and are excellent as well in addition to Baffin boots.

WINTER CLOTHING RENTAL - Q & A.

Q. How do I choose the right size of winter clothing?

Early Winter/Early Spring Season (October – December 01; March 15 – April 01)

Select the size you normally wear. If you wear a medium jacket, then order the same size parka, the same general theory applies for all of the articles of clothing. For example. If you wear a small glove, then choose a small mitt.

Winter Season(December – March 14)

Select one size larger in a parka than you normally wear. For example: If you wear a size Ladies Medium, suggest you choose a size Large. This allow for more airspace that will keep you warm and allow for additional layer (warm sweater or fleece)

Boots: Come in full sizes only. If you take a half size, please round up to the next full size.

Q. What do I wear under the Parka and snow pants?

We recommend you dress in layers. Wear a long sleeved woolen undershirt and warm sweater or fleece under your parka; we suggest you wear long woolen tights/leggings/underwear or similar garment under the snow pants as well.

Hand & Toe Warmers - highly recommended! Keep extra warm by using Little Hottie (chemical) hand and toe warmers! Depending on when you visit and your tolerance to cold, these little packages provide additional warmth and are active for 6-10 hours; they help keep you warm especially in extreme cold conditions or if you are standing outside viewing the aurora, ice fishing or taking photos. We happen to sell them too, so if you want some with your clothing rental order please let us know. Cost \$3.00/per package of 2.
